WHEREAS by section 379 (1), paragraph 95 of The Municipal Act, R.S.O. 1960, Chapter 249, the City of Hamilton may by by-law change the name of a highway; and

WHEREAS the said section 379 (1) requires that the City shall state the reason for the change;

THEREFORE the Council of The Corporation of the City of Hamilton enacts as follows:

1. The names of the following streets shall be changed as follows, namely:

(3) From Angus Street to Denten Street, the whole of Angus Street extending between Nash Road and Loyalist Drive, requested by the residents to eliminate mailing difficulties resulting from the confusion between Angus Street and Agnes Street.

(4) From Radial Avenue to Wilson Street, the whole of Radial Avenue extending between Steven Street and Wentworth Street, to establish continuity of street name with other sections of Wilson Street established immediately east and west of Radial Avenue.

(5) From Wilson Street to Century Street, that part of Wilson Street extending between Steven Street and Wentworth Street, as this will no longer be connected with other sections of Wilson Street.

14.—(1) Every insured person shall file with the Commission a final acreage report in Form 3 on or before the 15th day of May in each crop year.

(2) A final acreage report filed with the Commission shall not be amended without the consent in writing of the Commission.

15.—(1) The Commission may revise the final acreage report in any or all respects and adjust the premium accordingly and, in such case, shall notify the insured person in writing forthwith respecting such revision and adjustment.

(2) The insured person shall be deemed to have agreed with the revision of the final acreage report and adjustment of premium made by the Commission under subsection 1 unless, within ten days from the mailing or delivery of the notification by the Commission, he notifies the Commission in writing that he rejects such revision and adjustment.

(3) Where the Commission receives notice from an insured person under subsection 2, it shall notify the insured person in writing that the contract of insurance does not apply for the crop year in respect of which the final acreage report was filed and shall refund any premium or premium deposit paid in respect of that crop year.

(4) A final acreage report revised under this section shall, failing notice under subsection 2, constitute the final acreage report for the crop year.

16.—(1) Where an insured person in any crop year fails to file a final acreage report in the form and manner prescribed by this Regulation, the Commission may,

(*a*) prepare a final acreage report; or

(*b*) declare the insured acreage to be nil.

(2) Where the Commission prepares a final acreage report under subsection 1, the Commission shall mail or deliver a copy of the report to the insured person.

(3) Every insured person shall pay the premium for the crop year in respect of which a final acreage report is prepared by the Commission within ten days from the mailing or delivery to him of a copy of the report.

17.—(1) Where the Commission has not revised the normal expected yield stated by the insured person in a final acreage report, the Commission may, on the adjustment of a claim for a loss in production of forage in the crop year, require the insured person to satisfy the Commission that such normal expected yield was based on a reasonable assessment of the productivity of the seeded acreage under normal growing conditions.

(2) Where the insured person fails to satisfy the Commission under subsection 1, the Commission shall determine the normal expected yield and shall reduce accordingly the total guaranteed production determined in accordance with section 9 and the maximum amount of indemnity for which it is liable under section 11, but no portion of the premium shall be refunded.

The Crop Insurance Act (Ontario), 1966

FORAGE ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for forage under The Ontario Crop Insurance Plan for Forage, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder.

NOW THEREFORE, subject to *The Crop Insurance Act, (Ontario), 1966* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover forage.

CONTRACT OF INSURANCE

1. The provisions of subparagraph 1 of paragraph 8 and of paragraph 9 of the Contract of Insurance shall not be applicable under this endorsement.

CAUSES OF LOSS INSURED AGAINST

2. This endorsement insures against a loss in the production of forage in a crop year resulting from drought, excessive moisture, excessive rainfall, flood, frost, hail, insect infestation, plant disease and wind.

DURATION OF INSURANCE

3. The contract of insurance for forage is in force for the crop year in which it is made and continues in force for each crop year thereafter until it is cancelled or terminated in accordance with the regulations.

INSURABLE YIELD

4. The insurable yield is the normal expected yield of seeded acreage for a crop year computed in tons of hay equivalent less the aggregate of,

(*a*) the normal expected yield of pasture;

(*b*) that portion of the normal expected yield declared by the insured person to be fed in the crop year; and

(*c*) any summer live stock allowance not provided for in clauses *a* and *b*.

COVERAGE

5.—(1) For the purposes of computing insurable yield and total guaranteed production, tons of hay, hay silage and corn silage shall be converted to tons of hay equivalent.

(2) The conversion mentioned in subparagraph 1 shall be made on the basis that,

(*a*) one ton of hay is equal to one ton of hay equivalent;

(*b*) 2½ tons of hay silage is equal to one ton of hay equivalent; and

(*c*) three tons of corn silage is equal to one ton of hay equivalent.

6. The coverage provided for forage is such percentage of the insurable yield as is determined in accordance with the provisions of the plan.

TOTAL GUARANTEED PRODUCTION

7. The number of tons of hay equivalent determined in accordance with paragraph 6 is the total guaranteed production of forage for a crop year.

INDEMNITY

8. The maximum indemnity payable for a loss in production of forage in a crop year is the amount obtained by multiplying the total guaranteed production by such established price per ton of hay equivalent as is determined in accordance with the provisions of the plan.

PREMIUM

9. For each crop year in which the insured person has acreage seeded to forage crops, an annual premium shall be paid, the amount of which shall be determined in the manner prescribed by the plan.

FINAL ACREAGE REPORT

10. In each crop year in which the contract of insurance is in force for forage, the insured person shall file a final acreage report in the form and manner prescribed by the plan.

CROP YEAR

11. The crop year for forage is the period from the 1st day of May in any year to the 31st day of October next following.

FINAL DATE FOR SEEDING

12. The final date for seeding corn for silage in a crop year is the 15th day of June, or such other date as may be determined from time to time by the Commission.

VARIATION IN CORN ACREAGE

13. Where the acreage seeded by the insured person to corn for silage in a crop year is not the same as that declared in the final acreage report, the insured person shall, within ten days after the final date for seeding corn for silage, notify the Commission in writing of the actual acreage so seeded and the total guaranteed production and premium shall be adjusted accordingly.

ADJUSTMENT OF CLAIM

14.—(1) On the adjustment of a claim for loss in the production of forage in a crop year the Commission may require the insured person to satisfy the Commission that any deviation made by him from the intended cropping program specified in the final acreage report did not contribute to a reduction in the normal expected yield.

(2) Where the insured person fails to satisfy the Commission under subparagraph 1, the Commission shall determine the normal expected yield and shall reduce accordingly the insurable yield, total guaranteed production and the maximum amount of indemnity for which it is liable, but no portion of the premium shall be refunded.

15. Where, on the adjustment of a claim for loss in the production of forage in a crop year, it is ascertained by the Commission that the number of live stock maintained by the insured person during the crop year exceeded that specified on the final acreage report, the Commission shall recalculate the summer live stock allowance, and if necessary, the insurable yield, total guaranteed production and the maximum amount of indemnity for which it is liable, but no portion of the premium shall be refunded.

16. On the adjustment of a claim for loss, where the insured person has not harvested any portion of the seeded acreage by the end of the crop year, the Commission shall determine the potential production of such unharvested acreage for the purpose of determining the actual production of the total seeded acreage.

EVALUATION OF LOSS

17. For the purpose of determining the loss in production of forage in a crop year, and the indemnity payable therefor, the actual production of all corn silage, hay and hay silage shall be combined, and in no case shall the production of corn silage, hay or hay silage be taken into account separately.

18. Where, at the end of the crop year, the actual production is found to be less than the total guaranteed production, the indemnity payable shall be calculated by multiplying the difference between the total guaranteed production and the actual production by the established price per ton of hay equivalent.

19.—(1) Where loss or damage occurs during the crop year and the insured person deems it necessary to increase the acreage of pasture beyond that declared on the final acreage report by,

(*a*) the seeding of acreage to an annual supplementary crop; or

(*b*) the converting of a grain crop to pasture,

the insured person shall notify the Commission of his intention to do so.

(2) Where the taking of the action referred to in subparagraph 1 results in a reduction in the indemnity that would otherwise be payable to the insured person at the end of the crop year, the Commission shall pay a supplementary benefit in lieu of the indemnity that would otherwise be payable.

(3) The supplementary benefit mentioned in subparagraph 2 shall be calculated at the rate of $8 for each acre of supplementary pasture contributing to the reduction of indemnity that would otherwise be payable, provided that in no case shall the total indemnity paid to an insured person exceed the maximum indemnity calculated in accordance with paragraph 8.

20. Where loss or damage occurs during the crop year and the insured person deems it necessary to increase the production of forage beyond that declared on the final acreage report by the harvesting of grain or annual supplementary crops as hay or silage, the insured person shall notify the Commission of his intention to do so, and shall store any such production separately in order to enable the Commission to measure its quantity, and such production as measured by the Commission shall not be included in the calculation of actual production at the end of the crop year.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

21.—(1) Where the actual seeded acreage in a crop year is less than the seeded acreage declared on the final acreage report, the total guaranteed production and the maximum amount of indemnity shall be reduced to such extent as the Commission deems necessary as a result of the lesser seeded acreage.

(2) Where the actual seeded acreage in a crop year exceeds the seeded acreage declared on the final acreage report, no increase shall be made to the total guaranteed production or the maximum amount of indemnity.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its General Manager but the same shall not be binding on the Commission until countersigned by a duly authorized representative thereof.
